

Royal York Union Update

Wednesday April 2 2025

The company tried to punish the Shop Stewards & members who stood up to fight for our collective rights. While everyone is back at work, the fight is far from over.

Management is trying to violate our contract hotel-wide by attacking seniority rights, disregarding long standing past practices, creating unreasonable workload situations, managers doing bargaining unit work, scheduling violations, unjust disciplines, creating health and safety risks and more.

WE MUST STAND TOGETHER AND DEFEND OUR CONTRACT EVERY DAY.

Know your rights. Speak with a Shop Steward.
Speak with a committee member.

Speak with a union representative.
